a WuXi AppTec company

As European representative of WuXi Biology, Crelux provides customized, early-stage drug discovery solutions. Our integrated services in protein production, structural biology, biophysics & screening, biochemical and cellular assays are all tailored to enable comprehensive drug discovery support.

At Crelux, we empower our clients to accelerate their research - helping them work faster, more efficiently, and focused on success. By integrating the comprehensive service portfolio of our parent company WuXi AppTec, we provide unique opportunities to streamline and advance discovery, from concept to candidate.

Research Associate – Cellular Functional Assays and Organoids

To strengthen our team, we are looking for a dedicated Research Associate (m/f/d) with a background as Technical Assistant (BTA/CTA/MTA) or a Bachelor's degree in biology, biotechnology, or related life sciences. (no PhD)

Responsibilities

- Perform cell based assays (e.g., proliferation, viability, reporter assays, immunoassays, nanoBRET, etc.)
- Culture and maintain primary cells and cell lines,
- Establish, optimize, and validate new assay formats
- Document all work according to industry standards and internal SOPs
- Analyze and interpret experimental data (e.g., using Excel, GraphPad Prism)
- Collaborate closely with Senior Scientists and other laboratory teams
- Contribute to study reports and scientific presentation

Required Skills

- Completed training as TA (BTA/CTA/MTA) or a Bachelor's degree in biology, biochemistry, biotechnology, or a related field, no PhD
- Hands on experience with cell culture (adherent and/or suspension)
- Practical experience with cellular assays and basic molecular biology techniques
- Accurate, structured, and reliable working style
- Strong team spirit and motivation to work in a dynamic environment
- Good command of English and German, both written and spoken
- Experience with stem cell culture, 3D cell culture, and organoids is a plus

We offer:

- A role in an innovative and scientifically challenging environment
- Diverse projects for international clients
- Structured onboarding and continuous training opportunities
- Modern laboratory infrastructure

- Competitive compensation and permanent contract
- Access to eGYM Wellpass membership for personalized fitness and wellness plans.
